

**KELDIN**

## Hard Red Winter Wheat

- Outstanding test weight
- Very good standability
- Excellent yield potential
- Broadly adapted variety

**KELDIN** stands out for its protein content, but is also known for its other excellent characteristics, such as emergence and test weight, as well as its milling and baking qualities. This broadly adapted yield potential leader also provides an outstanding disease package with very good resistance to Leaf Rust, Yellow (Stripe) Rust and other foliar diseases.
